Contributors and friends of news are solicited from all readers of the Gazette. Every one knows of some interesting facts or happenings that others would like to read about.

While the best interest of regular communication is much of interest in that the nature of things, they cannot get. Let your interests in your local paper and pride in your town lead you to add in making the Gazette more bright and new.

Friday, January 13, 1893.

When you pay your subscription watch for the change of date. If it is not increased a year in four weeks, fine time of payment, please notify this office.

The powers exercised by the British throne are illustrated by the fact that no sovereign has voted a Parliament bill for 18 years. The president of the United States would disdain to be such a ruler.

The early part of January gave us one or two days which were quite mild and people allowed their fires to smoulder, and then began to prepare a new batch of fuel. This time, however, the local proprieites got far from the true condition of things. Since the first few days of the month the mercury has fluctuated between a few degrees below and above zero and large amounts have been made on wood piles and the contents of coal bins.

General Butler.

In the passing years of General Butler a remarkable figure in American life and politics lost. Although for the few last years of his life growing bodily infirmities had compelled him to retire from active politics the remarkable career he had made in the national wing of the government is not forgotten nor will they be during the present generation. The striking individuality of the man was most plainly shown in those canvases. It was a strong man, a hearty, frank and hearty friend, a hearty companion.

During the war there were times when General Butler occupied most important positions and these he held admirably. At Baltimore in suppressing the rioting he was a credit to the service. In the defense of Washington, in New York during the riots, in New Orleans in producing order out of chaos, and at Fortress Monroe when he solved the negro problem by his famous declaration that the slaves were to be made war at and that other and other critical times rendered valuable services to his country and gained much fame for his courage and ready ability in trying positions.

Especially a man of the people, General Butler was always popular, being affable and easy to approach. With his wonderful originality he was the most unique political character of his time, and was probably more widely known than any other Massachusetts man.

1843.—"Despatched—1893.

The incident connected with the lives of men and women are so nearly like the incidents in the lives of their men and women, that they seem hardly worthy of a special mention, but here and there by some deed of heroism or philanthropy the name of the woman is immortalized. The name is immediately inscribed upon the Temple of Fame and he is forevermore a part of the history of the age in which he lived.

Now the less, however, are these men and women who build homes and make them the places where friends and neighbors love to gather. They are a part of the history of the country, and the incidents connected with their institution and their individuality are followed by the best wishes of their schoolmates and teachers and the world over. The school year is now over, some another but by agreement 'ere separating most all of them came together to organize and to form the first class which should hold its class together to hold a reunion every winter and each of the members present for the first day of the month to form the first class.

Democrats Organize.

The Democratic organization has organized with the choice Major John W. Hart, chairman; Albert M. Worthy, secretary; Robert McIntosh, treasurer; and the old stand another.

Union National Bank Elects Officers.

At the annual meeting of the shareholders of the Union National bank of Weymouth, held Jan. 10, the following gentlemen were unanimously elected directors:

Henry C. Aldrich, George H. Bucknell, William H. Clapp, George H. Nash, John H. Lewis, Edwin P. Worster and Benjamin S. Tilden.

In a subsequent meeting the board was organized by the choice of Henry A. Nash for president and Edwin P. Worster for vice-president and Edward P. Worster for treasurer.

REUNION.

Class of '88 North High School.

For now five years since the class of '88, the North High School has been in existence, and the officers and the members thereof started out their individuality and followed by the best wishes of their schoolmates and teachers and the world over. The school year is now over, some another but by agreement 'ere separating most all of them came together to organize and to form the first class which should hold its class together to hold a reunion every winter and each of the members present for the first day of the month to form the first class.

East Weymouth Briefs.

—Mrs Augusta Dinsmore is in Boston, with her sister Mrs. Hinsdale, where she will remain during the winter.

—The Columbian club held its regular meeting Monday night and listened to a fine paper by H. Bucknell Reed. "Life without literature is Death." The question to be discussed was postponed to the next meeting.

—The family of Mr. Warren Burrell, who was buried last Saturday, was a remarkable one in its connections. Mr. Burrell was one of a family of twelve children, his wife, Mary Gardner, was one of a family of thirteen children and at one time these children could count eighty-two first names.

—Wiley Lodge, 1. O. F. of South Weymouth will be the guest of the Ladies' Cemetery circle will meet with Mrs. John P. Lovell next Thursday afternoon.

—Summer Thompson has been suspended from active work for several weeks on account of a bad attack of the measles.

South Weymouth Items.

—Mrs. Alfred Tirrell and Mrs. Minot Tirrell left Boston, Tuesday, January 3, for Alexandria via Gibraltar, in the Institute Course this evening. This was the greatest bit of last year, and this year the course is said to be even finer and more varied. Dr. Kelley and his charming Conservator are always favorites wherever they go.

—Prof. Rich of Woonsocket, R. I., occupied the pulpit at the Union church last Sunday morning and evening.

—John M. Walsh is quite ill with a stomach trouble.

—John Jackson starts tomorrow for two weeks' trip to Rochester, N. H.

—Mr. and Mrs. Charles Scott are spending a few weeks at Lummel Torrey's.

—The society of King's Daughters have underwritten an operetta, which is to be given at some time.

—Lake, who caught a number of games for the Institutes last season, has signed with the Boston League club for the season of 1892.

—The annual meeting of the Monomoy Yacht club, which was to have taken place last Monday evening, was postponed on account of the storm until Tuesday evening, Jan. 24.

—Miss Annie Perry, of Rockland, Me., who has visiting friends in this town, returned to her home Saturday.

—D. G. M. H. A. Thomas and a number of officers, accompanied by a large delegation from Wiley Lodge, will go to Weymouth this evening to install the officers of North River Lodge. The usual good time is expected. Train leaves this station at 7:05. Return back when they get off.

—Another one of our oldest residents has passed to her rest. Mrs. Benjamin Tirrell of Pond street passed away last Saturday at her late residence. Deceased was 93 years old and leaves one son, Mr. Thomas Tirrell, of this village, and two daughters, Mrs. James Holbrook of Pond street, this village, and Mrs. Royal Norton of Weymouth.

—Next Monday evening Massassett Lodge of Brockton is to visit Wiley Lodge. It is expected that about sixty will come down. Wiley Lodge works the second degree on one candidate. There will be a collation and dancing and it is hoped that as many as possible will be present.

—We are glad to learn that Miss May Weston is able to be out again after her long illness.

—Frank Tribou has purchased a horse and buggy. The horse is without doubt a trotter.

—The continued cold weather has made it very difficult for the ice-cutters. E. W. Raymond has cut his ice and is getting the first of the week. E. W. Martin is getting his ice this year from the pond at R. L. Mond's mill on Mill street.

—At the Boston Ice Company's house has been progressing for the past few weeks and work was begun in the house the first of this week. Any who have not yet work at the Boston house should make an effort to get there as soon as possible.

—The lecture given Tuesday evening at the Unitarian church was a success.

—The earnest, stirring sermon preached by Rev. H. C. Alvord last Sabbath, upon the text, "Lord, what wilt thou have me do?" was one of the best to which we have ever listened.

—Rev. William H. Bolster of the Harvard Divinity School, Boston, will speak at the Union church next Sunday morning.

—The proceeds of the Norfolk Cycle club minstrel show will amount to about \$100.

—The sixth entertainment in the Cooperative Lyceum course was given in Fog's Opera house last Tuesday evening by R. O. Armstrong on the subject "Ben Hur." An exceptionally good audience attended the lecture.

—The lecture was well received and it is hoped that another opportunity will be given to the audience.

Churches at the Hub Now Receiving Public Attention—Reform in the Pulpit Needed.

Now that the work of purging the city of its immoral influences has been thorough, the question is, what is to be done with the churches? The question has been asked over and over again, "How is it that our places of worship are so slimly attended on Sundays?" In answer it may be said that many of our pulpits orators are not up to the mark, and conform them to the popular taste, while others hold too closely to orthodoxy. If the preachers would confine themselves to the consideration of questions relating to the affairs of the era, and to the ministry to Christ, it is believed a wider interest would be taken in evangelical matters. Give the people practical matters, and it will be the way to the true enjoyment of life. Show them how to attain a higher manhood and a higher womanhood. Teach the father and the attractive mother how to bring up their children well, and they will prefer them to going upon the street.

This is a wise course and it is practical spirituality that is in demand. A little less spirituality and a trifle more materiality would not fill the soul of the average man. Another point is that the sermon should be simple. The minister generally uses words in sentences that are not easily understood. He forgets that his audience is made up of men and women whose mental development is not in line with his. The Colored people, who are the most brilliant scholars of the present age, are not understanding and involved phrases are all right when he is talking to college students, but it is to be assumed that nine-tenths of the people who attend his church are plain people whose intellects have been employed in finding out the ways and means to sustain life. Simplicity of expression is the best way to get the people to listen. The sermon should be simple, and the improvement would be still greater significance, and the comprehension made by the average person.

A better sermon would be made if the pastor would make a frank admission of his age and then the search for a new pastor to the congregation.

It has been a settled fact that the north section of the city is to be provided with a new and improved church by the Boston and Maine Railroad Company, and the Haymarket and Causeway stations will be the new church.

It is to be hoped that the pastor will make a frank admission of his age and then the search for a new pastor to the congregation.

MRS. T. LEWIS,

Rice's Block, East Weymouth.

AFTER THIRTY YEARS.

A Sad Story of Almost Unparalleled Suffering.

Speaks Now in the Name of Truth and Justice.

A Sage of Eighty-Three Years Gives Eloquent and Timely Testimony.

A most interesting thing.

The following letter in regard to it explains itself.

Deputy United States Marshal S. R. Tracy was a prominent and important figure in American affairs, and gained a world-wide celebrity by his noted arrest of Lewis Baker, the murderer of William Pool at the Canaries Islands in 1855.

The noted deputy marshal is a veteran and now his letter shows all his old-time ways.

In the Christian Leader I read a letter from Rev. C. D. Beacham, pastor of the Baptist church of Townshend, Vt., stating the wonderful cure received by him by taking Dr. Greene's Nervura blood and nerve remedy.

"I fully endorse all the reverend gentleman's sayings about the efficacy of the Nervura. Also, I learn of the testimony of H. S. Shorter, Esq., who lives at 391 Broadway, Newburg, N. Y., a man of 75 years, who was in health by the time he came to the same remarkable medicine.

"Now have to add my knowledge of experience with Dr. Greene's Nervura blood and nerve remedy. I have been an invalid and laid up with the gout and rheumatism for the past three years; confined to bed for months at a time, and in great excruciating pains and have taken all kinds of prescriptions for relief, but with very little effect.

"The social at the Universalist church this Thursday evening is to be opened up by the gentlemen of the society. A few years ago the same thing was done and it was a great success. It is hoped to make this one as successful.

"A large audience gathered at the Union church on Sunday evening to hear Rev. W. H. Hobart, the former pastor of the above church but now of the Harvard Congregational church, Dorchester. The subject of the morning discourse was "The Simplicity that is in Christ," taken from II Cor. x. 1. Owing to the snow storm but very few attended the evening sermon.

"The service at the Old South church was omitted last Sunday evening and those who had gathered there, went over to the Union church and enjoyed the sermon delivered by Rev. Mr. Hobart.

"The people are holding the sleighing which is very good at present, but a few do not enjoy it for the reason they get smashed up.

"Sledding's large broke down last Sunday at the foot of the hill on Main street near Park avenue.

"Thomas Bosch was out with a fast horse in a sleigh last Sunday, but when he came in he was minus a shaker.

"An unknown party received some damage to his sleigh last Saturday night near the railroad crossing on Main street.

"It has relieved me from trembling and nervous prostration when no other medicine will do. It is a miracle that is a great relief. This is no theory or imagination but a fact that experience justifies.

"This medicine has been to me worth more than all the gold dug out in California, and does so much good that it should be known throughout the world.

"I do not know Dr. Greene, and have never had any communication with him. This statement is in the way of truth and justice.

R. THORNE, Esq.
Chapin Home, E. 6th st., New York city."

"I thought I would try Dr. Greene's Nervura blood and nerve remedy, and am now on the fourth bottle. The last four weeks I have been feeling and am improving very fast. Indeed I am a new man to what I was years ago, though now in my 83 year.

"I signed and weight to the strong and convincing words of this well-known venerable gentleman. His words alone should and will influence every ailing person who reads them to make use of this great and valuable remedy.

—An unknown party, while trying to make those who use it now and again, does indeed, seem, as Mr. Thorne, is worth more than gold.

It may be necessary to know to what extent we can enter into successful competition in a field where we have been supreme for many years to come.

It has been maintained that the New England states need have no fear of losing their supremacy in the great market of the United States, and that this reduction should be sufficient consolation for the decay of agriculture.

It is a thought suggested, however, in this invasion of our industrial field that it is unwise to let the New England states be the only ones to do this.

WOMEN WILL LIKE IT.

And No One Will Think of Blaming Them.

Perfectly Right That Women Should Regard Their Complexion.

And This Is So Much Better and Such An Excellent Way.

We believe it perfectly right that women should regard their complexion as being much more beautiful. We believe pleasure, therefore, in publishing the following letter to women written by that most popular and brilliant newspaper correspondent, Miss J. Holland, of New York.

—The officers of Orion Commander, No. 2, U. S. C. were publicly installed, January 17, by L. W. Cain, D. G. C. asst. to the commanding officer, and H. Spencer, D. G. H. The following officers were installed in their respective chairs: P. N. C., Horace W. Spear; N. C. Francis, L. Smith; V. H. C., Lucinda E. Thomas; W. P. J. Austin; Deane K. of New York; Madeline F. of Boston; Martin, F. of New York; E. J. Pitcher, W. H. Roger; W. Drew; W. L. G. Lowell; R. Thomas; W. O. G. John; W. V. Vinton. After the installation a collation was served and the company was entertained by the officers.

—A man who hasn't anything to do has been puzzling his brain to find out how much J. Gould's money would weigh if it were all put into one scale. The weight of the Gazette would have been devolved to the interests of the South Village. Mr. Easterhold told your correspondent once that no matter how large the circulation might be it could not live upon news alone. The paper that will pay the most is the one that will sell the most.

—The South Boston Ice Company have finished storing ice, 40,000 tons have been housed without any drawback, working day and night without snow or rain.

—If the advertising public had supported the Gazette as it have done, they have the right to expect that the Gazette would have been developed to the interests of the South Village. Mr. Easterhold told your correspondent once that no matter how large the circulation might be it could not live upon news alone. The paper that will pay the most is the one that will sell the most.

—Several years ago a severe illness left me with so little vitality the doctors said I might linger for a time but would never recover.

—I then took several bottles of this medicine and after taking it a few times I was quite well again. I have since passed several severe mental strains from the loss of dear ones by death. I have never been sick since.

—The Society of the Union church assembled in the vestry of the Union church for the purpose of organizing a Y. P. S. C. E. After a few remarks by the pastor the society was organized and the following officers were elected: President, Mrs. C. L. Vining, vice-president; Mary L. Vining, secretary; and John F. Hunt, treasurer. The new society starts off with 41 active and 15 associate members. The full list of committee will be brought up for the next meeting.

—Last Sunday noon as the employers of the Boston Ice Co. were about to go to work, they were photographed by one of the members of the Camera club of this village.

—The young people of the Union church are still in the vestry of the Union church for the purpose of organizing a Y. P. S. C. E. THE WEEK IN BOSTON.

Mrs. Frank Leslie spent a few Days at the Hub—The Business of Typewriting.

Mrs. Frank Leslie spent a part of last week in Boston. While here she was favorably received by the members of the New England Press Association. The leading event of her visit was her attendance at the monthly meeting of the aforementioned organization. Mrs. Leslie is a woman of great energy and tact. She is a member of the dressmakers art, especially the waist, what there was of it. It was excessively deceptively, so much so that when she was asked to talk on typewriting, she was quite a number who may be classed as ornamental. Some of these feathered beauties are, it is true, also profitable to the poultry keeper, but I doubt if it is worth the trouble to call them feathered beauties. Take the subject of this illustration of a White Crested Black Polish cock and his companion in the cut. A little Duckling Game Bantam and a Montrose. It is emphatically the fine feathers that make the fine bird to the eye of a fancier. A White Crested Black Polish fowl must be a fine bird, with a crest and a tail that is a model of the most ornamental breeds we demand first of all.

The local talent is pouring in upon the committee of the Boston Picnic having the charge of the arrangements.

The applicants are informed that there was not an immediate reformation in his mode of life she would give him the g. b. It is proposed to do better, but after all, who can tell? The Montrose is a very good bird, but it is not a model of the most ornamental breeds we demand first of all.

The best features of "Fables in the Woods" are the "Black Cock," now playing in the Academy of Music in New York, are going to be merged into a great picture, to be shown at the Boston and the Bay McVicker's theater. *Theatricals.*

It is a brother of Oscar, the brother of Edna, and the son of the Senator of Columbia. "Lady Winter's Fan" Globe, Francis Wilson, "The Lion Tamer" Howard, "The Devil's Doctor" Gatty and Bijou, vanesselle. A big time was made here over the appearance of the new "Black Cock." The Texan Statesman has announced that it was the first time he had ever asseyed the "Cock." The writer was a plump, fat old man, who had a very good time, but he is a fat man to make him look that good. To see him in the part makes one almost forget Mr. Hoyt's talents as a playwright. He has no business on the stage.
